

```
import java.util.Scanner;

public class Program {
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);
        System.out.print("Enter a string: ");
        String str1 = sc.nextLine();
        int sum = 0;
        for (int i = 0; i < str1.length(); i++) {
            if (Character.isDigit(str1.charAt(i)))
                sum = sum + Character.getNumericValue(str1.charAt(i));
        }
        System.out.println("Sum is: " + sum);
    }
}
```
